

# TRACY SMITH

Tracy has honed a hilarious insight on how to navigate the mean streets of Womandom, carrying all of her middle aged baggage in a tightly packed carry on. With a personality just sweet enough to offset the bitter truth she dishes out, Tracy allows us all laugh out loud at the rough roads ahead of us or behind.

Smith is one of the most respected voices working in stand- up comedy today, her television appearances include NBC's *Late Friday*, her own half hour specials on both *Comedy Central* and Canada's "*The Comedy Network*", appearances on HBO and A&E. She is also a favorite on the *Bob and Tom Radio Show* and toured with the "Bob and Tom All Stars".

Tracy's show is on point, insightful, edgy, honest, and most importantly, hilarious and relatable to anyone the law would call an adult. *The Los Angeles Times* says "Tracy is blonde and buxom with material as tight as her skirt".
